

Video Visits

Select Mental Health Counselors and Psychologists at Everett Clinic Center for Behavioral Health offer therapy sessions via a video visit for their returning patients. Video counseling visits are similar to in-person counseling sessions but done from the provider's computer to your personal digital device. This eliminates time spent driving to and from your appointment. The providers who offer this service are: Laura Macleod, John McGuigan, James Dauer, and Paul Schoenfeld. **To use this service, please talk to your provider or call our office at 425-339-5453.**

Are Video Visits for counseling covered by insurance?

- In Washington State, most insurance plans are required to cover Video Visits for counseling services if you have coverage for the same visit when provided in the office. Exceptions are:
 - Video Visits are not covered by Medicare part B (Original Medicare)
 - May be covered by your Medicare Advantage plan. Please contact your Medicare Advantage plan to see if Video Visits are covered.
- If you have a co-payment due, it will be billed to you.
- If you miss the Video Visit or do not have an internet connection strong enough to sustain a video visit, you will be charged the \$100 missed appointment fee.

What else do I need to know about Video Visits?

- We are unable to provide first time visits via Video Visits at this time.
- While we hope to spread this to other providers in the future, Video Visits are only available to patients currently seeing the providers listed above.
- If you have an in person visit scheduled with one of these providers, you may request it be changed to a video visit.

What do I need to do a Video Visit?

You can use a smartphone, tablet, laptop or home computer. To enjoy the best experience on VSee, make sure you have:

- High-speed Internet access
- Bandwidth of 150 kbps (500 kbps is best)
- Webcam or built-in camera
- Microphone and speakers

What internet browsers are supported?

VSee works on:

- Microsoft Internet Explorer (9.0 or later) - flash player must be installed
- Mozilla Firefox (latest version) - except iOS and Android
- Safari (latest version) – please don't use private mode
- Google Chrome (latest version)
- Internet Browser - default browser on some Android devices

Also, in your settings, turn on:

- JavaScript
- Cookies

I have a Video Visit appointment scheduled. How do I connect with my provider?

To get started, close all other video conferencing programs, such as:

- WebEx
- Skype
- GoToMeeting

These programs can interfere with VSee.

Using a computer:

- Enter this web address into your internet browser 10 minutes prior to your appointment start time: <https://everettclinic.vsee.me/u/bh> and click “ENTER WAITING ROOM”

The screenshot shows the VSee patient waiting room interface for The Everett Clinic. At the top left is the logo "The Everett Clinic For the whole you." and at the top right are links for "Help" and "Test Computer". The main heading is "Welcome to The Everett Clinic". Below this, there is a warning: "If this is an emergency, hang up and call 911" and "Current number of patients waiting: 0". A prominent blue button labeled "ENTER WAITING ROOM" is on the right. A red warning states "If this is an emergency, please call 911". A list of providers is shown, all marked as "Offline": Nanette Reinecke, Paul Schoenfeld, John McGuigan, Laura Macleod, and James Dauer. At the bottom, there is a "Provider Login" link and the text "Powered by VSee".

- Enter your name, check the consent box, and click “CONTINUE”
