

# Thank you for choosing The Everett Clinic!

To provide the best care possible during your Walk-In Clinic visit today and help expedite your care, we now offer **Convenient Care** for patients with one specific illness or injury.

We may need to evaluate other patients ahead of you based on the severity of their condition and medical needs.

We value your time and are working hard to keep your wait to a minimum while continuing to provide you with convenient, high-quality medical care.

Thank you.
